

The new and improved FIFA animations are now more lifelike than ever before. Through the new “Muscle Physics” engine, the AI reacts more intelligently to the way you play your game. EA Sports has also enhanced the player’s overall look and feel. Key Features: New Muscular and Flexible Physics The “Muscle Physics” engine inside the game has been completely reengineered for even more responsiveness, including a more realistic kicking and passing technique and improved connection to the ball. New Play Styles 13 new play styles are included, providing a unique experience for any player. Pro Skills Improve your game by getting the most out of Pro Skills such as the free kick, lob, chip and over-the-top. Improved Player and Ball Interactions Player controls have been reimagined, and tackles and other interactions on the ball are more dynamic. Team- and Skill-Specific Tactics New tactics modes and assistant modes help everyone become a better player. Improved Player Models Player models now more closely match the real-life player and will adapt to each

player's position and game context. Improved Player Icons and Team Icons Players now look more natural and realistic on the pitch. Individual Deflection Controls Deflection controls are now controlled individually for both defenders and attackers, and react dynamically as you play your game. Player Facial Animation Improvements Facial animations have been improved in a number of areas, including weight, movement and depth. Pitch Design It's all about the details, including new grass textures, player visibility and even a goalmouth construction.

Q: Subprocess Popen is not reading file I have a simple python file that I'm running with subprocess.Popen. If I print out the file contents from a shell, it works: `/path/to/file.py 2+2` Code: `import subprocess cmd = ["/bin/bash", "/path/to/file.py"] print subprocess.Popen(cmd)` Running the script gives me this output: `bash: /path/to/file.py: No such file or directory` I don't understand why the program isn't seeing the file as it did when I ran it
