- Very nice gameplay and a lot of originality - lovable story and good looking environments - beautiful soundtrack - Controls are easy to manipulate. I really love this game. - Story is basic but its enjoyable. - High difficulty (5 Stars) - Gameplay is fun and is well balanced. - Controls are easy to manipulate. I really love this game. STORY AND ANIMATION: - A lot of mature content - Beautiful art and animation - The story is based on a legend. I feel like there was more story to it, but I can't help but feel like there is some content you can't see or explore unless you unlock it. It is a nice "tale" in the game to see that happen. - The story reminds me of the Warcraft universe. No, it doesn't. It is... not what the "fantasy games" are. It is close to a "sword and sorcery" game, but the story is rather bad. There is a good idea about a story that is told as fragments of the world that the story is about, as the characters are in different places, but everything gets really confusing after that. The world is interesting and the story is good looking, but there are some parts that are a little lame. - Many surprises. - This game is a mix between the gameplay of typical JRPGs and others. Some really good ideas on how to make the action RPG side seem more present, and a lot of things are pulled off really well.

---

Some of the ideas in this game are reused in less successful RPGs in the years since. Although, I love when a new developer has ideas that they attempt to pull off and implement better than those in the previous game. I also love that everything is extremely customizable, even the spelling and grammar of your character's dialogue can be customized from "cool" to "damn." The only problem with this game is that when you're in a battle, the camera goes in the direction of the melee right before you fight, which can lead to getting distracted when playing the game and losing focus. Otherwise, this game has some really nice ideas and that it can learn from other games on how to implement them. GAMEPLAY: - Many weapons and enemies - You can play as a bff6bb2d33

Thanks and regards, A woman who claimed she was sexually abused in Ireland has said a judge should have gone easy on a convicted paedophile. Sarah Butler told how she was sexually abused in Dublin as a girl but the trial of her former school friend, John Duffy, collapsed at the first hurdle after the judge decided he was not an accused. Duffy, from Wicklow, who is currently serving an 18-year sentence for child sex offences in the UK, is also being prosecuted in the UK by gardai. He is due to face a full trial there after being extradited and prosecuted in the UK. Butler, who was sent to school by the judge, told of how she was abused during a school trip to the zoo in Dublin at the age of 14. The judge found Duffy, then aged 17, not guilty of abuse on grounds he was not accused of the offence. And she said that Judge Seamus Hughes should have cut her a more lenient break than he did. "I think it was the correct decision in relation to the accused in this case, but the decision has affected the whole country and many children are waiting for a decision in their own courts," she told the Irish Independent. "I would have preferred to be satisfied with the fact that
