The Elden Ring is not an RPG where you check out a list of spells and attacks, but a game where your own strength and ingenuity determine the outcome. Players can freely create their own characters and build the world of their choosing. The title combines a unique, addictive RPG style along with an engaging online multiplayer that constantly keeps you involved. THE STORY OF THE BOOK OF SHADOWS. The land of the Shadowlands is in chaos. The Scions have just barely fended off the invasion of the so-called Elden Ring army. The Scions have barely survived—and it looks like it'll be only a matter of time before the Ring's army expands their territory, as the shadow of darkness is growing. However, the Elden Ring does not want mere power. As the source of the light in the Land Between, they seek to bring salvation to the Shadowlands—and help bring peace to the forces of evil, the true enemy of the Scions. THE SIDE STORY OF 'THE BOOK OF SHADOWS'. The story of 'The Book of Shadows' begins in the middle of the summer—just before the invasion. A young apprentice Shadow Lord named Tarnished has gained an esteemed reputation as a master of the dark arts. However, he is about to make a big mistake... A THIRD HOPE FOR THE LANDS BETWEEN. The war between the Scions and the Elden Ring is far from over. Despite the Scions' victory, rumors have long since spread of the existence of a third party, and the Scions are completely in the dark. Only the legendary Book of Shadows has the power to return peace to the Land Between... THE GAMEPLAY OF THE BOOK OF SHADOWS. The combat in the Book of Shadows is fast-paced and frenetic. As you upgrade your character and purchase new items, you'll be able to use a variety of unique skills to dodge enemy attacks and unleash powerful magic—along with the powerful "Book Gaining" feature, which allows you to temporarily increase the power of your Book of Shadows. The game's rich visuals are beautifully brought to life through a unique plot designed with bold fantasy elements and hand-painted characters. The online multiplayer offers a highly entertaining twist—something truly unique to the Book of Shadows. ABOUT ELEAGUE. It was the first major city retaken by government forces after they broke a string of ISIL strongholds in recent weeks as part of an offensive launched in September 2015. Syrian military operations in the Deir ez-Zor province were intensified in September last year, and ISIL was pushed back from many areas it once controlled. But a last pocket, in the city of Baghouz, remained unconquered. The Syrian army resumed the assault on the town on Tuesday, with artillery and helicopter strikes with the aim of expelling fighters from the last neighbourhoods of the city. The military operation is on its last phase, according to senior government officials. Victory in the battle will allow the army to establish a secure front line before any attack on Raqqa. Abu Mohammed al-Quraishi, a commander of the Syrian Tiger Forces, said bff6bb2d33
