I can run the following query and get the correct output for the top 5. `SELECT * FROM main_master WHERE free_text LIKE '% tobacco%' ORDER BY total_count DESC LIMIT 5`; However, I want to exclude the items where the free\_text has a value of 'proteus'. I tried the following SQL: `SELECT * FROM main_master WHERE free_text NOT LIKE '% proteus%' ORDER BY total_count DESC LIMIT 5`; However, it still returned:

A: You need to include a not condition on the where clause, like this: `SELECT * FROM main_master WHERE NOT (free_text LIKE '% proteus%' or free_text LIKE '% proteus%')` ORDER BY total\_count DESC LIMIT 5; This will filter out records where the free\_text contains proteus, and will still allow records where the free\_text includes proteus.

Bromine-containing compositions such as biocide, antimicrobial, and fungicidal compositions are effective against many types of microorganisms, including bacteria, fungi, and molds. For example, chlorine-containing biocides are used as synthetic, biodegradable, broad-spectrum antimicrobial agents in many kinds of water. Biocidal active ingredients in such compounds may include, for example, alkyl nitrites such as benzyl
